DELIVERY MODE

04/15/2009

PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/567,385	Applicant(s) ARNOLD, FRANC	
	Examiner Vicky A. Johnson	Art Unit 3656	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 March 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-26 is/are pending in the application.
- 4a) Of the above claim(s) 18 and 20-24 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-17, 19, 25 and 26 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I Figs 1 and 2 in the reply filed on March 23, 2009 is acknowledged. The traversal is on the ground(s) that Group II Figs 3-6 are not alternate embodiments of Figs 1 and 2. This is not found persuasive because Applicants specification beginning on page 13 line 12 discussed the various ways the invention may be different than the embodiment shown in Figures 1 and 2. Claims 18 and 20-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. The requirement is still deemed proper and is therefore made FINAL.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the sleeve slot and/or a horn slot of the clamp are filled with an elastomer material must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate

Art Unit: 3656

changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-17, 19, 25, and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because it is unclear how to interpret the limitation "a common grip surface and/or a common holding surface," and the limitation "the holding portion projecting into the clamping area at a distance from the sleeve."

Claims 2, 7, 10, and 12 are indefinite because it is unclear if the applicant is claiming the palm?

Claim 6 is indefinite because it is unclear how to interpret the limitation "or vise versa."

Claims 8 and 16 are indefinite because it is unclear how to interpret the limitation "and/or."

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 9 recites the broad recitation has a greater thickness outside than inside, and the claim also recites particularly at the transition to the holding portion which is the narrower statement of the range/limitation. In the present instance, claim 13 recites the broad recitation are at least partially covered by a shell covering, and the claim also recites particularly the clamp of the holding bar end extension which is the narrower statement of the range/limitation.

Claim 11 is indefinite because it is unclear how to interpret the limitation "particularly effecting a positive connection between the holding bar end extension or the clamp and the grip element."

Art Unit: 3656

Claim 13 is indefinite because it is unclear which elements are meant by "both," the holding bar extension, the clamp, or the grip element.

Claim 15 is indefinite because it is unclear how to interpret the limitation "gel-like."

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-17, 19, 25, and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Grätz et al (US 6,421,879), as best understood.

Grätz et al disclose a bicycle bar grip comprising a sleeve (1) comprising a sleeve slot (3), the sleeve comprising a clamping area arranged at an edge of the sleeve (right side), a clamp (32) connected with the sleeve in the clamping areas, and a grip element (7) connected with the sleeve, wherein the grip element comprises a supporting portions and a holding portion (see Fig 9B at 25).

Re claim 3, the clamp is configured as a holding bar end extension (31).

Re claim 5, the grip element comprises a holding portion forming an integral unit with the supporting portion and projecting into the clamping area (see Fig 9B)

Re claim 11, the holding portion has an inner contour corresponding at least partially to an outer contour of the holding bar end extension or the clamp (see Fig 10).

Re claim 12, at the supporting portion has a contour (see Fig 9B).

Re claim 13, both the clamp and the grip element are at least partially covered by a shell covering particularly the clamp of the holding bar end extension (see Fig 15).

Re claim 14, the shell is configured at least partially as a spacing fabric (66).

Re claim 17, the grip element comprises a connection projection projecting into the clamping area (see Fig 10).

Re claim 19, the clamp comprises a screw (35).

Re claim 25, the bicycle bar grip has an offset relative to a handlebar (see Fig 9B).

Re claim 26, the offset is caused by a thickening provided substantially in the middle of the grip element (see Fig 9B)

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vicky A. Johnson whose telephone number is (571) 272-7106. The examiner can normally be reached on Monday-Friday (7:00a-3:30p).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
